POST TRANSPLANT MENTAL HEALTH

Medication side effects, ICU delirium,
and feelings of guilt and sadness

LEARNING OBJECTIVES

- Understand the impact on mental health in transplant recipients after solid organ transplant.
- Recognize how immuno-suppressant medications can impact mood.
- Identify coping skills to help manage changes in mood to support recipients post-transplant.

APPROVED FOR 1 CEU HOUR FOR PA LSW, LCSW, LPC, AND MTF

Gift of Life Family House is approved by the Pennsylvania State Board of Social Workers, Marriage, and Family Therapists and Professional Counselors to offer continuing education for social workers, marriage and family therapists, and professional counselors. The Gift of Life Family House maintains responsibility of this program.
